

Capability Statement

Komatsu America Industries LLC
8770 W. Bryn Mawr Ave.
Chicago, IL 60631
Phone: 847-437 3888
Fax: 847-437-1811
Email: kac_info@global.komatsu

Core Competencies

- Local Field service technicians and centralized US parts warehouse in TN for all Komatsu stamping presses (mechanical or servo drive) in North America.
- Press inventory maintained with capacity from 35 ton to 600-ton, custom ordered up to 4000 ton.
- Applications supported include hand-in-die, coil line, blank feed, transfer systems, tandem lines.
- Integration with most current PLC's for automation support on existing and new installations.
- All presses meet ANSI B11.1, NFPA and OSHA Standard Section 1910.217 requirements.

Past Performance

Suppliers Served:

- Olin-Winchester
- GE Aerospace
- UTC Aerospace
- Honeywell Aerospace
- Collins Aerospace

Tier suppliers of the above.

Differentiators

- Komatsu Field service technicians (not sub-contractors) located in key mfg. areas in the US.
- Parts, service, and sales support direct from Komatsu US.
- Maintenance and operator training and re-training at no charge.
- Komatsu designed and installed controls for single source responsibility- not 3rd party.

Company Data

- Established in 1985- proven support in stamping industry.
- Largest US install base of automotive OEM's.
- Installed base of over 6000 machines in NAFTA
- HQ Chicago (IL), Offices in Nov (MI), Boston (MA), Lexington (KY)
- Eighty employees in 3 divisions (Small press, large press, cutting)

Pertinent Codes

- CAGE: 9NHU1
- NAICS: 423830 / SIC: 5084
- UEI: VEGELPUEC1N6
